
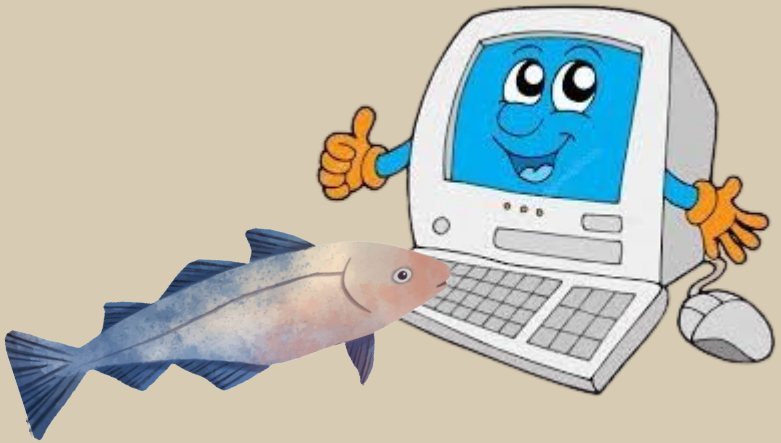
What if we were like computers and only understood specific commands???

Computer Coding!

Goal: Move your partner to a chair with only these commands:

- 1 step Forward
- 1 step Backward
- 1 step Left
- 1 step Right
- Sit down



Discussion Questions

- What were some challenges when you pretended to be a computer?
- What was easy about the activity?
- Do you think a computer works similarly to how you worked with your partner in this activity? How?
