

Team Antarctica

As we set up a viable community on Antarctica, we have a range of roles to be filled. By completing this survey you will help us understand the range of interests and comfort levels of all participants so we can anticipate who may enjoy contributing in particular ways.

Note that by filling this out you will be contributing data to a dataset that will be turned into a spreadsheet. We are collecting e-mail addresses so we can track completion of this task, but we will anonymize the spreadsheet before we share it with the class.
